OBJECTIVE

As an experienced Salesforce Developer with over a year of hands-on experience, I am eager to leverage my expertise in developing and customizing Salesforce applications to drive impactful business solutions. I have a proven track record in utilizing Salesforce technologies, including Apex, Visualforce, and Lightning Web Components, to create robust and scalable applications. My goal is to contribute to dynamic projects by applying cutting-edge Salesforce features and integrations to tackle complex business challenges in CRM, data management, and automation.

EDUCATION

Gandhi Institute for Education and Technology, Bhubaneswar, OD
B.Tech (Computer Science and Engineering)

August 2016 - December 2020

Prakruti Science College, Rourkela, OD
